Me and my friend have been playing one on ones recently on GSA servers. However after a few good games a player happens to enter our game. I was wondering if I could host a game for me and my friend to connect to.

Just the main questions:

- 1) How would i set it up?
- 2) How would my firend connect!

Thanks in advance. KANE LIVES!!!!

Please e-mail me if you can with the answer:
