Ghostshaw wrote on Sun, 30 December 2007 07:34: Actually me and stealtheye did a little research into this for a school project last year.

The verdict was that it is possible but not just simply putting 2 magnets above each other (cause the free floating one either flips or "slides off").

-Ghost-

Put little walls on the sides of your mousepad, and then it wouldn't slip off...

Honestly, a hovering mouse would be too much money and too useless.
