It is completely impossible to deny or escape it. Tell me something that "proves" you aren't and I will tell you something why you are.

I'm not racist because I don't believe in the superiority of any race. I do however believe that certain races are in power. And right now, whites are in power. That's not being racist, that's being realistic. If I don't like it, and don't want to believe it, so what? It doesn't make it any less true. THEY are the police. THEY are the army. THEY are the authority figures. The rest of us are just the civilians, and the fact is, if they wanted all of us dead tomorrow, we couldn't do shit about it.

I don't hate white people, and I don't hate anyone. The mongolians were the ones in power not too long ago in human history, and then the romans, and now the whites. We all have our day in the sun. Trying to say, "No we're the best, we're just building up our army" and shit like that isn't true, it's just stupid.

For all I know, whites may be in power till the end of all humans. However, I do know, that they aren't, or don't APPEAR to be any better than anyone else, and we're not any better than anyone else. They just organized themselves to achieve a better position. Most of us didn't.

You can call me racist. I'm not. You want to know what the definition of racism is? Extreme hatred or disgust with a race. I don't have that. I'm a realist. I don't live in a freaking dream world that "Blacks are the all powerfull", or that "Whites are the dang gone devils come to rape our world!". I don't believe that shit, it's all hocus pocus.

You all can be some ignorant dumb fucks if you like, and call me racist, a race traitor, stupid, whatever. I don't give a crap what you think. But the fact is, whites are in power, and there's nothing we can do to change that. If they lose their position to anyone, it's going to be the Mexicans or the Chinese.
