Dover, I'm sorry. You were right, I was ignorant. I should have listened to you, but I have mild OCD, and the fact that something having no real purpose or place really bothers me.

The biggest use of the tiberium auto rifle is that it deals splash damage. If you have extras on, and you play as the middle mutant (accoylte? I think?), you can actually heal yourself in the field by firing at your feet with a tiberium auto rifle.
