ACK-Checker Beta

Have you ever been flamed or pointlessly corrected by Aircraftkiller because your post doesn't meet his standards? Well my friends your worries are over! Currently in it's Beta stages, the ACK-Checker is an answer to many a forums members prayers. Based on the concept of the Spellchecker and the Grammar checker, this new application takes it to the next level. BAM! Simply type or cut-and-paste your text in the textbox, hit the "check" button and this baby will point out all the ACK-Errors so you can change them before you post your topic. Here's a list of just some of the features:

[list]Auto-correct ION to Ion

Auto-correct Gdi to GDI

Auto-correct NOD to Nod

Standard Spell Check

Standard Grammar Check[/list:u]Also, if you choose to ignore the suggested corrections, ACK-Checker will generate a suitable ACK response, ranging from the beloved classics "STFU you n00b!" and "You're a complete Idiot!" to new found favorites such as "OMG! No one even cares about that!" and "My opinion is the only one that matters!"

Post with confidence!
