How can i get this in the right Position the 100 HP and the 100 Armor.

Always if i try to change the positions then my Ren will crash after the map loaded. (in HUD.ini) Now i want to make a new Key (if you press "U" the Building icons and HP should dissappear, but how can i do that)

EDIT now i cant change anything in the HUD.ini or my ren will crash, i think its cause i use my hud.dll.

And dont pick on my textures! its only a edited gdi radar from C&C TW wich i edited!
