Hi

anyone needs a 1gb disk space
cpanel acces
100gb datalimit,

almost no limits!

you can have this in exchange for a FREE
teamspeak 2 server 15player slot.
on a 100mbit connection.
+ Teamspeak super admin control panel acces etc.

---
i does not have to be a 100mbit connection.
but if i notice lag on a full server = termination of the webserver account.
