ok i dont know if it is a topic for this board but i dont care

if its wrong place mod will move it to hated board

anyway i reinstalled windows

and theres a ERROR on renegade

ok here it is

this ss is when i try and patch the renegade game

this is a ss for when i tryed to patch it and it failed and i try to play renegade

i have reinstalled renegade 4 times and it dose the same thing

and i have ERROR with java it wont install for some reason but thats nowt to do with renegade so i never said

but i just thought that might be the reason

Patching

File (6 of 19)
RenRem.exe

Working

The image shows a window titled "Patching" for the game "Command & Conquer: Renegade". The window features a header image of a soldier in a combat stance against a fiery background, with the game's title "COMMAND & CONQUER RENEGADE" in the top right corner. Below the image, the text "File (6 of 19)" and "RenRem.exe" is displayed. A progress bar with 19 segments is shown, and the status "Working" is at the bottom.

Patch error. Existing game files may have been modified. You should re

Verify of New File Failed. Possible Internal Error.

OK

The image shows an error dialog box with a white background and a grey border. The title bar text is partially visible as "Patch error. Existing game files may have been modified. You should re". The main text of the dialog reads "Verify of New File Failed. Possible Internal Error.". At the bottom right, there is a single button labeled "OK".
