But he didn't say that. He said blame equally falls on the Soviets. Like you can blame the US because the Soviets started to build WMDs in Cuba, right outside the US' bounties.

I don't know about you, but I kind of like the east cost of the United states, it is kinda where I live.

Funny. I don't recall Soviet Russia having anything to do with Vietnam or Korea.

And how can you be bitching about WMDs in Cuba when the US has bombers capable of carrying nukes from the West Coast to Moscow since the mid-late 1970s? I guess threatening countries with nuclear destruction is only okay when the US does it.
