Nice thread!

The most favorite song of ALL time is The Space Lovers by the Space Lovers. No other song can win over this over me on this. It has a very mesmerizing track...the kind of music and vocals that stick to your memeory and don't leave.

I am not posting link to it because I am not sure if the Administration here would take it too kindly.

But just type "Spacelovers" in YouTube to watch. It's a great tune.

Another favorite song is:

Waiting for Tonight by Jennifer Lopez

And here's the uber-remix of it! Watch this!

I have many more but anything from DI.fm is beauty for me! I prefer Western music like Techno, Trance, Vocal Trance, Eurodance, and also Russian Techno. Anything with a nice tune, good beats, and sexy female vocals.
