danpaul88 wrote on Mon, 28 January 2008 05:45 So did the American army run out of conventional bombs and resort to trying to bomb people with satellites now?

(FYI: Above sentence was intended as humour only and is not supposed to be taken seriously. Anyone doing so should refrain from ever visiting this forum again until they successfully locate and install their brain.)

LOLOL, it would miss and bomb us allies instead.

Shouldn't really have nothing to worry about, it will burn up on re-entry, all you will see is a bright light as it falls though, if there is any part of it that makes it though, the sizes be so small and it will likely fall into the sea or some part of there world that would be safe.

But, if it does make it though, I hope it hits EA HQ.
