---

LuaScripts.lua is from inside a folder called ExampleScripts is from inside LuaScripts.  
All other were found in LuaPlugins.

ExampleScripts and ExamplePlugin were auto-matically installed.

After fixing it and sending it back to me can you please tell me what was wrong with it? So that i can make sure i do not make the same error twice.

Oh and im banned from the DCOMProductions site last time i checked. There a bunch of a\*\*\*oles!

Besides, i aint been on this site since is started back on RA2 about 2 months ago. Thought i'd drop in here instead, your always helpfull->
