IronWarrior wrote on Thu, 07 February 2008 08:03Blazer, maybe some terrorists hijacked some submarines and flew them at the undersea cables?

That's pretty farstretched, Iron.

Even a small mini-sub is damn expensive. Also improvishing a one-time use submarine and guide it towards the exact location of the cables without any advanced navigating devices is too hard to believe.

I am sure this is not the work of terrorists as terrorists pride themselves on their media image and media assests. Yep, terrorists have giant websites with forums (all closely monitored).
