Well whatever this new AVP is. Unless it's anything like the AVP2 or Primal Hunt I know I don't really wanna know.

I aint saying it's crap. NEver judge anything you haven't seen.
But even, If it's Primarily for PSP then I don't think it can be all that good.

Do you know if it follows the line of the AVP2 storyline?

I aint played Primal Hunt for a long time and don't know how it ends but at the end of AVP2 you see the Colonial Marines Verlok ship and crew heading back to the Solar System, then a few minutes later the Predators ship follow behind...
