I'm not seeing any similarities...

The closest thing I see is that Soviet tank that kinda looks like an Overlord tank... but it is a stretch at best..

I mean the only similarities is that it has treads, is red, has a star on the top, and has two barrels. It looks completely different in every other way.

If looks like anything else in the C&C series, it looks like a Mammoth tank from TD or maybe Renegade (just not as blocky).
