YanoKIRBY098HomeyCan't take an insult? Childs cry over insults

:rolleyes:

What's next? "My dad can beat up your dad"?

Your limited preteen vocabulary, and intellect limits you to this kind of conversation I see.

No thanks kid. I have better things to do.

OK, all might superior forum god. If you are sooo grown up you should take insults like a mature person would. How would a mature person take insult?, you don't obviously know, do you? A mature person would just take the insult and move on, you don't have to say anything just laugh and move on. And if you don't like kids soo much **WHAT THE HELL ARE YOU DOING HERE?** This is a forum for a GAME Most people that play GAMES are teens and kids, not stuck up creeps like yourself.

Ok, now this is getting funny.

I think you're the one getting wound up here. Don't get all upset because you can't follow logical thought patterns. Just stick you're head back in the sand and pretend you understand.

Oh, and:
