This is why I hate religion.

Religious people act all superior like they own the world, and everyone else hates them for it. I quoted Rocko as an example.

You say that and yet you act as if it's all religious people. I don't see how you can say they're all terrible when you're using generalities yourself.

He never acted as if "it's all religious people."

When you say things like "Religious people..." and "everyone else..." it sure sounds like you're speaking for everyone in that group. He never said anything like "most" or "some" or "the extremists", not even "the loudest group within". So I'd say that counts as saying all.
