bigwig992kawolskyNuttavud1Renegade is never die!

renegade will never die you mean,
go read a dictionary and you might learn how to talk properly

That was mean and stupid. Look at his sig, he's from Thailand, give him a break.

LOL Nuttavud1 you gonna be more careful! Anyway, hope you're not saying Thai people have weak English. If you said, it's true, but never count that on me I was ranked 12th nationwide in English proficiency test and I can list you some more awards. But I don't know if Nuttavud1's grammar is as good as me, please forgive my subordinate. Anyway, Renegade will never die! If EA tries to shut down the server I'll make sure that my assistant has readied my Ion Cannon!
