It's actually "I Deslike you" and I remember the post. It was in the mod forum where some guy was making a mod for C&C Canyon that gave GDI the Nod extras and vice versa so each team had all of the extras. The only thing about this mod was that it was 125MB in size ... for the ONE map ... zipped up in a ZIP archive .. And you had to wait in a 2 hour fileplanet queue to download the file.

A load of flaming takes place then ACK says something like "STFU N00B" and he replies with what you hear in that MP3. There is actually a flash version with the writing of it and also the post is around somewhere. By the way it's DJLaptops voice in the speech if you didn't know. It was funny at the time if you read the post.

The post is at <http://www.n00bstories.com/renforums/viewtopic.php?t=252> but it is in a locked forum so if you want to see it then you need to ask a moderator to bring it out of hiding. When you read it you'll get what the MP3 means.
