I drive a silver 2001 Chevrolet Impala at 148,000 miles. It's a tough car, looks great, and is one of the few vehicles in the world that has its own logo. I'm buying another one as soon as she gives out on us, the last model made like mine is the 2005 version. The new ones (2006-2010) look too much like Nissans for my tastes.

These aren't photos of my Impala specifically but they'll do.
