Great seeing all the E3/Beta-Stuff working, e.g. driving the buggy is pretty cool.

Also great seeing some Renegade-2-Stuff, like the BigWalls.

But I would prefer having all this original Westwood-stuff without the other personal modifications. Most of them are very low in quality, low resolution textures and so on.

Also a lot of beta-stuff was not used, e.g. the old refinery, the old harvesters, old silos...

Would be nice to have a mod simply and purely using original fixed WW-Stuff.
