Subject: BR 1.52= The custom time limit doesn't work Posted by EA-DamageEverything on Sat, 15 Mar 2008 23:18:09 GMT View Forum Message <> Reply to Message

Hello, the topic title says it all. I have several FDS (for testing purposes) with different bots on my machine, one of them is equipped with the BR.

So, here is the config: FDS 1.037, v00d00's server.dat fix and BR 1.52 (full not mini). Everything is configured and running fine, except the custom time limit per map.

What do I have to do? Svrcfg_cnc.ini (20mins) vs. mapsettings.xml (30mins) = Svrcfg_cnc.ini wins. Why?
