I don't have any ideas why I don't get 30 mins. RemoteAdmin is ON, BR has got Op on the IRC channel and all Modules are turned on AFAIK. The brenbot.dll loads without errors...

I experienced a similar Scenario with SSDM: If SpawnWeapons is turned off in the ssgm.ini and turned on in the svrcfg\_cnc.ini, they keep on spawning...

I will check all settings again soon.
