Nune wrote on Sat, 22 March 2008 00:02I was wondering if anyone knew how to set up a hotkey to mute media player when you are running a full screen application.

I know of keyboard shortcuts for it, but they don't work when i'm running games such as ren. Perhaps its possible to make these shortcuts work when full screen apps are running?

Global hotkeys support in WMP is a no. There are plugins for it, but they tend to fail on Vista...
