ThinkHarderDBBsjezk3DBB....and why would you have an A-10 dropping vehicles? Are you stupid? Do you not know anything about the airplane itself?.....idiot.....

Its just for fun gawd dont you have a sence of humor :rolleyes:

I think its spelt 'God' and yes actually I have a great 'sence of humor' but not when it comes to the military.....thats where and when we should all be respecting it.

What the hell as Renegade got to do with the military!! Its a game thats TOTALLY MAKE BELIEVE. It is NOT REAL its a game its fantasy its fake. Just because it happens to have a A10 in it doesnt mean anything, it is unrelated to the military its a game.

Anyway why the hell should we respect the military they are no different from anyone else they dont have any extra rights why should we respect them? and, more to the point what the fuck has it got to do with a bloody make believe computer game.

Please tell me I did not just read that last paragraph of your lil onslaught on the military. You my friend are a fucking dumbass. Do you realize what the fuck the military does for you every fucking day!? Dont like my language too bad asshole.....because guess what.....the military earned me this right its called freedom of speech. Without the military to earn/defend the Constitution then we have nothing--hell we would all be controlled by Hitlers Nazi party and Japan. Moron. Are you from England or America(I ask because you said "bloody")? Either way our military provides us with these rights day in and day out. Do you plan on serving in the military.....obv. not because your a dumbass fucking donkey raper. When our men and women are over in another country losing their life-making the ultimate sacrafice- to help Iraq gain the freedoms we have and to perserve ours, and you come out and say a dumbass comment like that? Your the kind of people that deserve to get their ass kicked courtesy of the United States Military or The Royal Military. And back to the subject.....Im getting mad at this because A-10's are stationed right around my house(I live in New England so Ill let the smart ones out their figure out where Im talking about) and I have some friends who fly them.....who were/and still are over in the Middle East. So I dont take kindly to having some 10 year old making an A-10 do something its not supposed to do. Learn some respect you fucking whore.
