Dual-gaming is a community owned by Badmanh and P4L-DKthey host kicking ass game servers for counterstrike source and ofcourse Command and Conquer Renegade.

So what does this mean,
The command and conquer renegade servers will get the names tiberium-planet wich is hosted by <http://www.dual-gaming.org/> further they will manage everything, and i will help them with that. also we are expecting the communitys to become larger! and more fun. Our motto ofcourse is, the more soules the more fun what would the devil think hm? This will have a good impact for both communitys wich will be actually one.
