CarrierII wrote on Wed, 16 April 2008 14:29 Unless Tiberium is seriously good, we will outlive it, so long as we can get Renegade to work on Vista (Done) and with newer hardware (X9, X10 - also done).

Tiberium is going to have to be good, or else we'll all just register on the Tiberium official forums and point out that Renegade is cheaper and better.

Edit - EvilWhiteDragon, what is your sig about?!

"Tiberium is going to have to be good, or else we'll all just register on the Tiberium official forums and point out that Renegade is cheaper and better. :)"

that would be fun
