B.N.CWell I agree. B2b is for GDI only and cheap cowards use it, but it's not so easy to make that at field. I saw many cunts trying to do so but couldn't aim, so in the end there are some skills needed Lol I havent heard the word "cunt" used since I was back in grade school! Mwaha good times.....lol anywho I smell something fishy going on here(no pun intended!)
