Seriously, if they did, they wouldn't need the ridiculous amounts of patches they had to put in it. r4z0r wroteI agree with this, but only to an extent. Because EA doesn't have beta testers. this is just plain ignorant... from C&C3 onward EA genuinely made the effort to get the balance+bugs situation right (yes, I'm aware more than anybody here that this wasn't true before C&C3), but there are bound to be some that don't get sorted... trust me on this. I'm guessing neither of you have made a game the size of C&C3 or a complete patch for it?
