Anyone has the textures for the orca lift truck below???? They were in one of the commandpacks, but isnt available for download anymore.

And i would be interessted to know its "history"...

I guess, it was originally created by westwood, but they dont use the model later. they made the ssm-launcher from it.

And the model was later used by the commandmod?
So Genocide fixed or made it?

Because I found the statement from CommandoSR here in the forum:
Aircraftkiller: "Where is the orca lift Truck?"
CommandoSR: "Frankly said, the model got slapped and was turned in to SSM Launcher."
