so one thing before you guys start doing useless stuff.

the renegade engine does not handle this properly, a orca on this vehicle would just A: not look good

B: would not work

C: if it would work it would suck

d: its useless anyways

Too bad you didn't stay banned.

Also, I'm sure there's a way. And it wouldn't be useless if you set up the truck to repair and re-arm (If you have limited ammo on aircraft) orcas and other aircraft maybe.
