do u kno what renegade players like, especially boys, when the C:\Program Files\RenegadePublicTools\ gets deleted, when we install renegade , that folder is being created every week and we have to delete it and delete it , it is group about a gb every day and it gets on out nerveous, if u delete that folder for him today, he will like u more than he likes u right now , but u should kno that u should do it every week .

good luck, i do want to see how much he will like u after u delete that folder (sorry for runon sentances lol)

There should be a "what the fuck" rating on this foru-...

shit wrong forum.

my post still applies to this thread though.
