Yeah, but as soon you crossed that line you cant argue anymore. There are talented Rappers aswell as talented Rockers, Jazzers (I think I just invented that word) or whatever. As soon as we crossed that line, theres just no arguing anymore.

Quote:Not to mention that discussing music with people that share similar tastes is always fun. Thats true, but the chance to find someone who listens to similar music in a gaming forum is usually pretty slim - maybe 1-12 people depending on the size of the forums.
