Quote:/join #n00bstories

/join #jchat

/join #jelly

/join #jelly2

/join #jelly-ra

/join #jelly-marathon

/join #jelly-mappack

As for the \$network == X, X should be the network name displayed in the treebar on your left. For example, on Jelly's IRC, it should be 'Jelly-Games'.

ok where i look can u take ss? plz?
