And yet you've just very helpfully proved me right. Thanks.

I lol'd heartily, because you're proving TD's point further. You suddenly know which parts I was talking about, eh? Guess your telepathy knows no bounds. Oh wait, that's not telepathy! That's just you pretending to understand everyone.

Spoony

No, pointing out you didn't read the thread - when you admit that indeed you didn't - doesn't prove anything about me, sorry. I know you're angry at being wrong, but it's just a renebate, you don't have to be as desperate not to lose it as TD continually proves himself to be.

I lol'd quite a bit. Once again, you're a telepath, aren'tya? Wait, nope, just a hypocrite. This one pretty much speaks for itself.

Spoony

Do you even know what a straw-man argument is? If you do, which doesn't seem very likely, would you care to find an example of me using it in a situation where it doesn't apply?

Yes, I do. Obviously I was using it as an example of the many things you repeat that no one really cares about because it's the internet, proving once again, you're a hypocrite.

Spoonyfinally, I'll just repeat something I said before

Spoony wrotel don't think you've read this thread very carefully, because if you had you'd have noticed that TD could not refute a single thing I've said, whereas almost everything TD said has been conclusively debunked as a pack of lies, forcing him to continually change the subject out of desperation not to admit he lost a renebate.

I always lol @ you going "SEE?! HE COULDN'T REFUTE EVERYTHING I SAID BUT I REFUTED EVERYTHING THEY SAID SO I WIN". That's basically the basis of every single argument you make, which is quite lulzy to be honest.

Especially when they, y'know, prove you wrong on shit and whatnot. But hey, let's ignore that and continue to be an arrogant asshole with a stick up their ass.
