Right, yes finally some updates. We are finally getting around to finalizing it. Recently we've been doing some testing on the latest version of Rp2. Quite a few new features to be excited about.

Instead of just posting a shitload of pics, I'ma just link you to the site, where all the current pics already are. If Blazea gets around to takin more pics, I'm sure he'll post em here.

For recent pics, [click here](#), then click 5-16-08 Testing Pics.
