22:18Americans and lawsuits go together like douchebags and ramjet rifles.

Canadian woman with no common sense+McDonald's coffee+Put on lap=Burn+Lawsuit against McDonald's for not warning her it's hot. Thus why now all coffee cups in Canada will say it's....hot.

Retarded student wanting free stuff+Vending Machine+Shaking Vending Machine=Vending Machine crashing on top of student=Death. Parents sue Vending Machine company, thus now why Vending machine now warning you, if rocked, can cause injury or death.

Woman sues American school board of education because her daughter now has "physiological problems" after watching Broke Back Mountain.

6 million dollars was won, But who got hurt? the girl and her parents who are clearly homophobic or millions of kids whos' education is damaged because they couldn't afford the latest text books and new computers, school repairs and lab equipment?

You decide.
