my old pc has a GeForce FX 5200 with dual monite rplugins

my new pc has this built into the moatherboard

nvida gefore 6150SE nforce 430

wat i like about my old vid card is it could have 2 moniters...

but i dont want to downgrade my pc...but i remmeber my old pc vid card seem to run better then my new one...

think i should put my old vid card in?
