Sorry you are very confusing can you be more specific? And I know this forum isnt well moderated but try to refrain from posting three times in a row.

Quote:that message that pops up
What message?

Quote:nr it wont connect my server wont let me use any of the commands
What does it do? Any Errors? Make sure your FDS path is correct in NR.

Quote:hyper texts at the end of them all the one that says nr plugins it won't let me download it is
it anywhere else
I have no idea at all what your talking about.
