warranto wrote on Wed, 11 June 2008 16:48Sorry?

What does a google search have to do with editing?

blimy, New testament is.. as I assume, a new part to the bible? or a new bible-related book? if so, apparently, editing the Bible, adding, or removing text is a sin.

Since when did I mention google in my last post? (OH THE WEB VERSION IS FAKE LOL.)
