ass code is gay, anyone using these sites is gay.

File Front owns, there is nothing better then a bit fat blue button that says "Download" and doesn't  
require you to register, login, type in some gay code 5 times in a row.  
next time it goes with rapidshare, megauploader, filefront, SKanestorage

and what "skins" are you all talked about??

Ok with the 'skins' we mean the: NUDE SAKURA TEXTURE  
What skins? :\
