CarrierII wrote on Sat, 28 June 2008 18:11I'm all for the "Admin" or "Mod" tag idea. That would speed up identification of individuals who can actually help.

I like this idea too

Although some moderators I know like to stay "hidden" until they're required to intervene I think it's best the players actually know who can help them.

Moderating is more than kicking people, it's also about helping the other players and answering questions about the server / gameplay.
