cpjok wrote on Sun, 29 June 2008 18:10i did read the instructions and i have already installed
PSDK and i have set it all up

It's not properly installed, or otherwise windows.h would be in your include path and those errors
would not be occurring.

EDIT: Follow the instructions at <http://www.microsoft.com/express/2005/platformsdk/default.aspx>
