-Tech-I still think BF1942 is far superior. I mean, Naval units, fixed-wing aircraft, Subs and everything is FREE!

Naval units and Subs can be easily put into Renegade. I don't know about making them fly for real, but you can make fixed-wing aircraft for Renegade. The last part is considerably stupid... How exactly is Renegade inferior to BF1942 because you have to purchase your vehicles? What, BF1942 doesn't have a money system? But Renegade does, now how does that make BF1942 superior? If anything, that would make Renegade more superior.

Quote:I tried the first-person version of this game and it was awful. Intermediate graphics, directed gamplay, Bah!

Lol... I'm sure you meant 'single player version'.
