hey guys

Ive installed renegade, but it will not auto download the core patches, i have tried manual
download - where i have unziped the patcher, then when i downloaded the program via this link
http://download.renguard.com/cp2/patchall.zip, nothing ahppens when i oepn program

how do i get the CP's working
and how do i get renguard to run with my current nik

Help is much appreciated
