APPLE WHORE DETECTED.

Seriously, he's pretty much right. It's all overhyped bullshit that a lot of other phones today can do, cheaper.

The reason Apple is so popular is that Steve Jobs geared his products toward the less computer savvy people in our world. Seriously, one of their ads depicts people proclaiming how retarded they are and how they were so stupid they couldn't navigate a PC- but miraculously, they seem to have been granted amazing skills with Macs from birth. It's stupid as hell.
