There's some maps I mad on here in the past with bots. Two of them you'll need to make sure you have a version of scripts with the teleport script though.

The bot ones are Mutant's revenge, Mutant mania, and Covert attack (kinda single playerish/co-op), M08 bots, and Lone guardian (these two are more multiplayerish)
Wow, that site's still up? I noticed the renegadecentral.com domain isn't working.
