There is a way to hide your ip, isp, locating and other stuff.
As you can see, on this topic, i tested to see what happens:
http://www.renegadeforums.com/index.php?t=msg&goto=341580&rid=23839#msg_ 341580

Look where i'm from, it says "theplanet.com", not "myactv.net"
Lol, it is a program i downloaded, IP Hide 2008(i think) and it hides your ip and stuff, but the bad thing about it, it is slowing down the internet
