About the beacon disarming...issue... it is possible. It has happened to me once too, I planted a beacon at GDI barracks on Islands. No one noticed me, so I cloaked and walked near the water, facing towards the beacon. Then it suddenly got disarmed, there was no one nearby... Afterwards a guy ran out of the barracks with a hotwire though.

I've also seen SNIPAAAAA, and I'm sure he uses MORE than just a clickbot. He gets headshot with every bullet he shoots, no matter what character or vehicle he uses. He also shoots all the time, I doubt he has to aim....

Just my opinion.
