No...

<http://renguard.com/> says 1311 unique players have logged into Renguard in the past 24 hours, and as far as I'm concerned most people don't even use Renguard anymore.

I think 500 people playing at a time sounds rational, but it's definitely at least a couple thousand who play on a daily basis.

I am one of the 1311 so.
